

CENTRAL ELECTRIC COOPERATIVE, INC.  
POLICY 805  
GENERAL SERVICE – IRRIGATION

I. Type of Service

Single and three phase service available to consumers that have irrigation pivots and pumping station services at secondary voltages.

II. Special Conditions

The irrigation season for the purpose of billing shall be from April through November but billing will be applied for each month where electricity is being consumed. Service will be left connected year around unless disconnected at the cooperatives discretion for distribution system operation purposes.

III. Rate

A. Facility Charge

- 1) Single phase service is \$59.45 per month during the irrigation season.
- 2) Three phase service is \$104.10 per month during the irrigation season.
- 3) The facility charge may be increased for added investment.

B. Energy Charges per month @ .057

C. Demand Charge per month based on any fifteen consecutive minutes during the month.

- 1) All non-coincidental KW demand during July and August @ \$6.60  
AND
- 2) All coincidental KW demand @ \$15.00
